

ABOUT KHELO TOYS

Khelotoys is the brainchild of four directors who came together with a vision to revolutionize the toy industry. Established in 2024, our company has quickly made a name for itself as a manufacturer of high-quality toys for kids of all ages.

We started by creating toys such as rattles and dumbbells for babies, and have since expanded our product range to cater to children of all ages.

At Khelotoys, we are passionate about quality. Our team constantly strives to improve conventional toys and manufacturing practices to ensure we offer the best products in the market.

BRAND
STORY

Khelo Toys began with a simple idea: to create toys that combine safety, education, and enjoyment. As parents ourselves, we understand the importance of giving our children the best start in life. That's why we've dedicated ourselves to designing and manufacturing toys that help children learn and grow while having a great time.
